

A NEW
DEVELOPMENT
VISION

Mission and expertise

The mission of **CESS INSTITUTE** is to offer to its clients « a new development vision » both at the theoretical and operational levels.

Our vision has three main pillars : **applied research, training** and **technical assistance**.

Through these pillars, **CESS INSTITUTE** offers to its clients, operational tools for a sustainable development.

CESS INSTITUTE ensures the sustainability of projects and programs by incorporating the financial system and Information Technologies as supporting tools. We are thus innovating by combining three key sectors required for a successful sustainable development:

- development strategies and programs;
- financial sector;
- Information Technology.

CESS INSTITUTE proposes an approach that is based on best international practices and standards for Managing for Development Results (MfDR), development project management and Result Measurement Framework (RMF).

A NEW DEVELOPMENT VISION

CESS
INSTITUTE

Applied research

Through applied research, **CESS INSTITUTE** offers to its clients, operational and technical solutions to development and poverty reduction issues. We also promote collaboration amongst researchers with shared interests in sustainable development and poverty reduction.

CESS INSTITUTE has a network of researchers with long field experience on poverty reduction and sustainable development.

CESS INSTITUTE offers to its clients appropriate and operational solutions to key development and poverty reduction issues.

The main research themes include:

- | Development Economics
- | Taxation
- | Social Security
- | Governance
- | Project management
- | Finance
- | Information Technologies
- | Project assessment

A NEW DEVELOPMENT VISION

Training

CESS INSTITUTE offers training to its clients on sustainable development issues. We also offer training, tailored specifically to the needs of our clients.

Our goal is to accompany our clients to address the challenges linked to the improvement of the welfare of their populations and to help public administrations and the private sector to strengthen their efficiency and effectiveness.
